

The easy, convenient, and pain-free way to aid in the treatment of nicks, cuts, scrapes, heel cracks, abrasions, hopple burns, girth itch, mild quarter cracks, rain rot, boot rubs, and saddle sores.

INDICATION: To be used as an aid in the treatment of minor scratches and abrasions.

DIRECTIONS: Thoroughly wash the affected area with a disinfectant soap and water and then towel dry. Apply a thin coating of Tenda Wound to the affected area. Continue applications twice a day.

PRECAUTIONS: Keep affected area clean. For external equine use only. Do not apply in or around eyes. Do not freeze. Keep out of reach of children. If redness or irritation persists, discontinue use and consult a Veterinarian.
